

Our CEG Instructors

As **Experts** in their respective fields, with many years of real-world experience, our instructors continually keep **Up-To-Date** with insurance industry developments. Most importantly, however, they make the success of each student a **Priority!**

With their decades of **Real-World Experience**, they go beyond the curriculum by including relevant and revealing stories, examples, and tips.

Our instructors use a combination of online interactive lecture, a variety of supporting online resources, and case studies to deliver the highest quality learning experience. Their most important goal is **Your Success**
